

iFluxNews – Terms of Use

Last updated: 14.02.2026

Welcome to iFluxNews, operated by Nicolae Alexandru Burcus (“we,” “our,” or “us”). These Terms of Use (“Terms”) govern your use of the iFluxNews mobile application (the “App”) available on iOS and Android. By downloading or using the App, you agree to these Terms. If you do not agree, please discontinue using the App.

1. Overview

iFluxNews provides AI-generated summaries of news articles and links to external news sources. The App allows users to browse and summarize content from various outlets to help users access information quickly and compare multiple perspectives.

2. Subscriptions and Payments

iFluxNews operates on an auto-renewable subscription model available through:

- Apple App Store
- Google Play Store

Available plans include monthly and yearly subscriptions. Prices may vary depending on region, platform, and applicable taxes. Payment will be charged to your Apple ID or Google account upon confirmation of purchase. Subscriptions automatically renew unless canceled at least 24 hours before the end of the current billing period. Users can manage or cancel subscriptions in:

- Apple ID account settings
- Google Play account subscriptions

Refunds, billing, and cancellation are handled exclusively by Apple or Google. We do not directly manage refunds or billing issues.

3. Content and AI Summaries

The App uses one or more AI models to generate news summaries. While we strive for accuracy, AI-generated summaries may contain inaccuracies or misinterpretations. The original source links are always displayed, and users are encouraged to verify information directly from the original publishers. We make no warranty regarding the accuracy, completeness, or reliability of summarized content.

4. Linked News Sources

iFluxNews displays links to external news websites and publishers. All links are attributed, and we do not host or republish original content. We are not responsible for the content, policies, or practices of any third-party sites.

5. Feedback

Users may provide feedback, suggestions, or ideas to improve iFluxNews. By submitting feedback, you grant us the right to use it for app improvement and development without obligation or compensation.

6. Push Notifications

The App may send push notifications related to news updates and app functionality. Notifications can be disabled at any time in device settings. Notifications are not used for advertising or behavioral tracking.

7. Data and Privacy

User preferences, filters, and settings are stored locally on the device. No personal data is collected, sold, or shared. Please refer to the Privacy Policy for full details.

8. Modifications to Service

We may modify or discontinue certain features or subscription options at any time. Users will be notified of significant changes through the App or store updates.

9. Limitation of Liability

iFluxNews is provided “as is” without warranties of any kind. We are not liable for damages, losses, or inaccuracies resulting from the use of AI summaries, linked news sources, or external content.

10. Governing Law

These Terms are governed by the laws of Germany and the European Union.
